WCCF Applauds Retention of Child Care Funding in Budget Repair

The Wisconsin Council on Children and Families (WCCF) applauds Gov. Doyle's decision to approve an $18.6 million increase in funding for the Wisconsin Shares child care subsidy program in the budget repair bill he signed today. WCCF commends Gov. Doyle and the bipartisan group of legislators who recognize this program's importance to the well-being of Wisconsin's hard-working families. The Council is grateful to all of these leaders for having the courage to protect this important program in the face of serious fiscal challenges.
