REP. SUDER: SUPPORTS JOBS FOR GENERATIONS

Mining bill will create thousands of jobs; inject billions of dollars into Wisconsin's economy

Madison – Assembly Majority Leader Scott Suder (R-Abbotsford) issued the following statement Thursday after the Assembly passed legislation that will update Wisconsin's outdated and archaic mining laws:

“Today we passed the most important jobs bill the legislature has seen in decades. By moving this legislation forward, we have paved the way for thousands of good-paying, family-supporting jobs that will last for generations of Wisconsin workers. Those who joined me in supporting this bill have cast a vote in favor of a brighter, more prosperous future for our state.”
