IBA Supports Governor Walker's School Choice Week Proclamation

Scott Newcomer, Executive Director of the Independent Business Association of Wisconsin, issued the following Statement regarding Governor Scott Walker's proclamation on School Choice week in Wisconsin:

"Wisconsin has become a leader in many areas, but school choice is an area where we need to expand even further. The families of this state deserve the options that the school choice programs provide for their children".

"We support Governor Walker for his support of National School Choice Week and his proclamation reaffirming that Wisconsin is a national leader of school choice. Wisconsin is home to the longest running and largest school choice program in the nation. More choice means that more families and students will have the opportunity to take control of their education and their futures."

The Independent Business Association of Wisconsin (IBA) is Wisconsin's voice of small business. IBA advocates for state government policies that help Wisconsin small businesses grow and prosper.
