Support Stand-Alone Vote on a Strong Great Lakes Compact

The Wisconsin League of Conservation Voters urges a stand alone vote on the passage of the Strong Great Lakes Compact.

A Strong Compact is key to protecting the Great Lakes now and for future generations. Over the past two years, protection of the Great Lakes has risen as one of the most important issues to citizens and communities. It deserves its own discussion and floor vote.

Wisconsin League of Conservation Voters will announce our position on the bill once we've had the opportunity to review the language.

Conservation NOW announces the pro-conservation positions on issues before the Senate, Assembly and/or Governor in the week ahead to state legislators. Others wishing to follow activities in the state legislature also receive Conservation NOW, including legislative staff, conservation voters, and media. All of these issues are tracked on the [Conservation Vote Tracker](#). Issues in the Conservation NOW may appear in the Conservation Scorecard, to be released in the summer of 2008.
