Diggers Hotline Excavator Safety Training sessions slated Contractors, excavators, builders, landscapers, municipal and utility workers are encouraged to attend

MADISON, Wis. – January 3, 2019– Contractors, excavators, builders, landscapers, municipal workers and utility workers are encouraged to attend the Diggers Hotline 2019 Excavator Safety Awareness Program. Every year, between January and March, Diggers Hotline and the Damage Prevention Council of Wisconsin hold a series of safety meetings throughout the state. These meetings promote safe digging practices and emphasize the importance of calling 811 before you dig, and Alliant Energy is participating.

Each meeting begins with a meal, followed by our safety-focused program, and wraps up with door prizes. There is no fee to participate, but attendees must register online at diggershotline.com.

Training sessions in January and February are below. Meetings in March will be announced later.
