## Alliant Energy promotes Diggers Hotline Excavator Safety Training Contractors, excavators, builders, landscapers, municipal and utility workers are encouraged to attend

MADISON, WI. – January 5, 2018– Alliant Energy is participating in the Diggers Hotline 2018 Excavator Safety Awareness Program. Every year, between January and April, Diggers Hotline and the Damage Prevention Council of Wisconsin hold a series of safety meetings throughout the state. These meetings promote safe digging practices and emphasize the importance of calling 811 before you dig.

Contractors, excavators, builders, landscapers, municipal workers, and utility workers are encouraged to attend. Each meeting begins with a meal, followed by our safety-focused program, and wraps up with door prizes. There is no fee to participate, but attendees must register online at [diggershotline.com](http://diggershotline.com).

Training sessions in January and February are below. Meetings in March and April will be announced later.
