## **Statement following Governor Walker’s State of the State address**

MADISON – Senate President Roger Roth (R—Appleton) issued the following statement upon the conclusion of Governor Walker’s State of the State address.

“Governor Walker’s address highlighted numerous success stories. More people are employed in our state than at any point in its history, the tax burden has been reduced by billions of dollars and the upcoming budget will continue to support and fund our world class educational system.

“Collaboration between Governor Walker’s administration and the legislature has led to innovative workforce readiness programs that are helping thousands across the state find family supporting jobs, as well as reforms that make our state one of the best in the nation for healthcare coverage – all while providing value and savings for hardworking taxpayers.

“Opportunities abound for the upcoming legislative session and I’m excited to get to work, both with my colleagues here in Wisconsin and the new leadership in Washington D.C.

“Governor Walker’s message is spot on – We are working and winning for Wisconsin!”
