Statement on Governor Evers's State of the State Address

“In my three terms in the State Senate, I have never seen a more backwards-looking, depressing and divisive State of the State address. Instead of looking towards the future, it focused on the past and negative. It was void of new ideas and full of blame. Where is the passion? Where is the hope? This was just ‘blah blah blah’.

“Evers spent literally half of his speech saying how Coronavirus devastated our state. And then he spent literally only one sentence about distributing the vaccine, easing that devastation. No details about his plan to roll out the vaccine or who gets what, when. It’s just proves he has no vaccine plan, leaving vaccines on the shelf while people suffer and essential workers go unprotected.

Evers still doesn’t get it. This was just a rehash of last year’s speech, showing that the Governor hasn’t learned from his mistakes, or grown in office. Like last year’s speech it was full huge spending increases, cheap partisan shots, and blaming others for his own inaction. At least I’m glad he is finally addressing his disastrous handling of the unemployment situation.

No matter what Governor Evers does or says, I continue to be focused on improving our jobs climate, reopening Wisconsin safely, cutting taxes, and growing our economy.”
