**Statement on State of the State Address**

**Kenosha** – Sen. Bob Wirch (D-Somers) issued the following statement after Governor Evers delivered his State of the State address:

“The Governor had a real challenge tonight, as Covid continues to exacerbate existing problems and create new ones. I think he struck the right tone, acknowledging the real issues before us while expressing optimism that, if we work together, we can overcome these hurdles. I was particularly pleased to hear Governor Evers’s commitment to fixing our broken unemployment insurance system and to tackle redistricting reform. These are tall tasks, but with cooperation, they are entirely doable.”
