**Statement from Jean Stefaniak
Chairman of the Board
Wisconsin REALTORS Association (WRA)**

The WRA applauds the proposed middle class income tax cut plan released today by the Assembly Republican Caucus. Lower taxes are good for the economy and good for promoting homeownership. By targeting the tax cuts to individuals making less than \$100,000 and couples making \$150,000 or less, the tax cut will benefit a critical segment of the housing industry and promote a stronger housing market, which benefits everyone. We hope the legislature and Governor Evers will be able to work together to reduce the tax burden on all middle class taxpayers in Wisconsin.

####

The Wisconsin REALTORS® Association is one of the largest trade associations in the state, representing over 16,300 real estate brokers, sales people, developers, landlords, attorneys, home inspectors, title companies, and other professionals involved with the real estate process.
