Rep. Zimmerman Supports Assembly Republican Caucus Budget Framework

Madison...Rep. Zimmerman (R-River Falls) is pleased to announce his support for a common sense framework that will provide at least \$300 million in tax relief and reforms with transportation cost savings; and a corresponding increase in transportation revenue to address the long-term solvency of Wisconsin's transportation fund.

"Governor Walker's administration has worked thoroughly to remain fiscally responsible to taxpayers. As a result, we are strongly positioned to provide common sense tax relief. We are going to give Wisconsin's taxpayers their hard earned money back."

Wisconsin's transportation fund is a top priority for Rep. Zimmerman, "the constituents of District 30 understand the importance of great roads, and I am going to work diligently to bring our transportation needs to solvency."

In addition to the transportation fund, Rep. Zimmerman is looking forward to working with his colleagues in the Wisconsin State Assembly to strengthen and benefit the various educational institutions throughout Wisconsin. "Wisconsin has a growing workforce challenge. I firmly believe education is the cornerstone of success for all Wisconsinites and will directly help address our workforce needs long-term. I am committed to finding a better way to fund our education systems while protecting our taxpayers."
