### **Colder Temperatures will Render Salt Ineffective on Sidewalks- Use Sand**

The recent winter storms have left many of the public sidewalks ice covered and slippery. City Ordinances requires property owners to treat sidewalks with sand and/or salt to provide traction when the ice cannot be removed. Sand provides better traction during colder temperatures. City Streets officials report that salt will be effective until about 6:00 p.m. this evening

Free sand can be found at the following locations- but only as long as the supply there lasts.

#### **East Side:**

- **Sycamore Park** (In the parking lot across from the Streets Division offices at 4602 Sycamore Ave.)
- **Monona Golf Course** (Front parking lot by the waste oil site at the corner of Monona Avenue and East Dean Road)
- **Olbrich Park** (Softball parking lot off of Walter Street)
- **Reindahl Park** (Portage Avenue parking lot)
- **Warner Park** (Softball parking lot near N. Sherman Avenue)
- **School Road Waste Oil Site** (At the intersection of School and Wheeler Roads)
- **Demetral Park** (Softball parking lot off of Sixth Street)
- **Tenney Park** (In the beach parking lot off of Sherman Avenue)

#### **West Side:**

- **Garner Park** (Parking lot off of Rosa Road)
- **Elver Park** (Softball parking lot off McKenna Boulevard)
- **Brittingham Park** (Entrance off W. Washington AV)
- **Glenway Golf Course** (Parking lot off Speedway Road)
- **Spring Harbor Parking Lot** (The corner of Norman Way and Lake Mendota Drive)
- **Yard Waste Site** (402 South Point Road)
