**Madison, WI** (Feb. 8, 2017) – Following the release of the Governor Walker’s budget, Chris Klein, President of the American Council of Engineering Companies of Wisconsin, issued the following statement:

“As this budget sets priorities, we believe investing resources in infrastructure in Wisconsin sets the tone for our economy and quality of life.

This critical investment not only ensures our economy can support existing businesses, but it would also help attract job creators. We look forward to working with the legislature to continue the dialogue on sustainability funding infrastructure.”

###

*American Council of Engineering Companies of Wisconsin members are designing and protecting Wisconsin’s future with professional engineering solutions. It is the only organization in the state that represents the business side of the professional engineering industry. ACEC WI represents 81 premier engineering firms with more than 160 offices across Wisconsin and affiliate members that provide support to the industry. Founded in 1958, ACEC WI supports member firms that employ more than 3,500 engineers, architects, planners, geologists, soil scientists, hydrologists, surveyors and other professionals.
