ACEC WI Applauds Governor's Investment in Infrastructure

Madison, Wisconsin: Chris Klein, President and Executive Director of the American Council of Engineering Companies of Wisconsin, released the following statement about Governor Evers' budget release:

Governor Tony Evers introduced a budget tonight that prioritizes investments in Wisconsin's infrastructure. The state's engineering industry applauds the Governor's leadership and commitment to transportation, water and energy infrastructure. Our state's infrastructure is aged, tired and long overdue for a responsible solution.

ACEC WI has been a strong advocate for investment in transportation, water, and energy in Wisconsin and look forward to working with the legislature to make this investment a reality.

About ACEC WI

As the largest engineering firm association in the state, ACEC Wisconsin is a proactive coalition of 80 independent consulting firms that employ 3,800 Wisconsinites. Our members represent every discipline of engineering related to the built environment—civil, structural, mechanical, electrical, environmental and geotechnical—and affiliated companies. As the voice of the consulting engineering industry, ACEC Wisconsin continually promotes the profession to a variety of audiences. For more information, visit www.acecwi.org.
