Senator Erpenbach is thrilled about the \$30 Million investment in the Alliant Energy Center

MADISON - Today Governor Evers announced that the 2019-2021 Capital Budget will include a \$30 million investment towards the expansion of the Alliant Energy Center.

“I am thrilled to see the Governor’s commitment to this project, which will trigger private investment in Wisconsin, and will create hundreds of jobs for the state. This project is a no brainer for our local community. With the high return on investment, this project adds exponential value for our residents, will attract visitors and events, and create economic opportunities with statewide benefits. I applaud the Governor for acting on this smart investment and continuing to put Wisconsinites first.”
