## **GOVERNOR EVERS' CAPITAL BUDGET DESERVES BI-PARTISAN SUPPORT**

*Building And Improving Wisconsin's Institutions And Communities Critical*

The following is a brief statement from CBG Executive Director, Robb Kahl:

“Governor Evers has boldly put forward a comprehensive \$2.5 billion Capital Budget that we wholeheartedly hope will be the foundation for growing and restoring Wisconsin communities. Bi-partisan support for the capital budget has been the tradition in Wisconsin and we believe these are badly needed new construction and improvement projects vital to Wisconsin’s economy and specifically the 40,000 men and women of the building trades and the Wisconsin contractors who employ them.

“CBG stands with the governor and legislative leaders who agree investing in Wisconsin makes sense.”
