**Iron Workers District Council of North Central States Statement on
State Building Commission Meeting on Governor Evers' Capital Budget**

Wisconsin Iron Workers support Governor Evers' Capital Budget proposal and call on the State Building Commission to approve it with bipartisan support. For too long state projects have been neglected.

Today we have the chance to move our state forward with critical investment in our state facilities and the opportunity to help sustain family supporting jobs in the construction industry.

The proposed capital budget reflects Wisconsin values – our college campuses, our mental health institutions, and our Veterans' homes. We thank Governor Evers for his vision and ask the State Building Commission to move these recommendations forward.
