Gov. Evers Announces Additional Shipment of Personal Protective Equipment from the Strategic National Stockpile

MADISON — Gov. Tony Evers today announced that Wisconsin has received its second phase of Personal Protective Equipment (PPE) from the Strategic National Stockpile (SNS) and is in the process of distribution. The second phase of supplies from the SNS are being delivered to healthcare workers, emergency medical services, and medical facilities including hospitals, nursing homes, assisted living facilities and clinics across Wisconsin.

“We are doing everything we can to get more protective equipment as fast as we can to our healthcare workers and those on the frontlines to protect them from COVID-19,” said Gov. Evers. “We want to make sure our healthcare workers can continue doing their good work and taking care of our neighbors in communities across our state, and we are working to get these supplies to the folks who need them the most as quickly as possible.”

The State Emergency Operations Center and Department of Health Services continue working to supply medical facilities with supplies requested from the Strategic National Stockpile. The second phase includes approximately 51,880 N95 respirators, 130,840 face/surgical masks, 23,400 face shields, 20,226 surgical gowns, 96 coveralls, and 79,000 pairs of gloves. Today’s shipment comes as Governor Evers announced Wisconsin’s first delivery of SNS supplies which included approximately 52,800 N95 respirators, 130,000 face/surgical masks, 24,768 face shields, 20,286 surgical gowns, 96 coveralls, and 61,750 pairs of gloves. In total Wisconsin has received approximately 104,680 N95 respirators, 260,840 face/surgical masks, 48,186 face shields, 40,512 surgical gowns, 192 coveralls, and 140,750 pairs of gloves from the SNS.

The SNS supply shipments do not include supplies the governor has requested from FEMA for non-medical personnel or supplies being aggressively pursued through procurement, donations, or the governor’s buyback program.

As always, the public should follow simple steps to avoid getting sick, including:

- Frequent and thorough handwashing.
- Covering coughs and sneezes.
- Avoiding touching your face.
- Staying home as much as possible, but especially when sick.
- Avoiding gatherings of 10 or more people.
- Practicing social distancing.
