In The News: Foxconn Creating Opportunities for Companies Across Wisconsin

[Madison, Wis.] – Gov. Walker’s administration is working to connect Wisconsin companies with opportunities to do business with Foxconn and help create jobs and economic growth across the state.

Over the past few weeks, businesses participated in Foxconn informational sessions across Wisconsin to learn about the unique opportunities to expand their own operations, create jobs throughout the state and take full advantage of the investment that is being made in Wisconsin. With more people working than ever before and record-low unemployment, Wisconsin is working under Gov. Walker’s leadership – now, the governor’s bold reforms are spurring additional economic growth to keep Wisconsin moving forward.

Check out what’s in the news:

[From The Journal Times](#): “Nearly 500 companies were represented Tuesday afternoon at an information session for hopeful Foxconn Technology Group construction-phase subcontractors, vendors, suppliers and professional services providers.”

[From WQOW](#): “Local businesses hoping to get a piece of the Foxconn project in Racine county learn what the company is looking for in its contractors. ... The project management firm says this means businesses all across the state, including here in the Coulee Region, can be a part of the project and are needed.”

[From WEAU](#): “The construction manager of the Foxconn project held informational sessions in La Crosse and Black River Falls Tuesday about how local companies can be part of construction.

'We're looking for 70 percent of the employees engaged in this project being Wisconsin employees. We have a target of 60 percent of all the firms we engage with be Wisconsin based firms' ..."

[From WLUK](#): "Foxconn is working to attract construction workers from Northeast Wisconsin for its manufacturing plant in Racine County. Construction of the \$10 billion manufacturing complex is expected to generate 10,000 construction jobs each of the next four years."
