Gov. Evers, Evers Administration Kick Off World Immunization Week, Encourage Wisconsinites to Get Vaccinated

Evers Administration video message: "Let's get vaccinated, Wisconsin!"

MADISON — Gov. Tony Evers today, together with members of the Evers Administration, kicked off World Immunization Week with a video message encouraging Wisconsinites to get vaccinated. The message comes during [World Immunization Week](#), a global public health campaign to raise awareness about the importance of getting vaccinated against preventable diseases.

The video message can be found on the governor's [Facebook](#) and [Twitter](#). It is also available on the governor's YouTube channel [here](#).

“I'm proud Wisconsin continues to be a national leader in getting shots in arms and that our administration is leading by example in encouraging folks to get vaccinated so we can put this pandemic behind us,” said Gov. Evers. “We can see the light at the end of the tunnel and I know folks are looking to return to normal life. Now that Wisconsinites ages 16 and older are eligible to get the vaccine, it's critically important to make a plan to get vaccinated and help us ensure that our state and our economy can bounce back and better than we were before this pandemic hit.”

More information about where you can sign up to get the vaccine is available on the [COVID-19 where to get vaccinated page](#).

To find a local vaccine provider visit the [COVID-19 vaccine provider map](#) or visit <https://vaccinefinder.org>. Individuals can also call the toll-free vaccine hotline at 1-844-684-1064 with questions or to get help registering for a vaccination appointment. The hotline is also available in Hindi, Hmong, Somali, and Spanish.
