**Statement from Senator Hansen on LFB Revenue Projections:**

**Governor's Presidential Ambitions Come at Expense of Wisconsin Families**

“Wisconsin is continuing down a path to decline under a Republican leadership that is more interested in supporting Governor Walker’s presidential campaign than they are in supporting our children’s education, the ability of their parents to find good paying jobs and health care for themselves and their families.

“Despite the Republicans’ attempts to convince the public that their agenda of giving billions of our tax dollars to corporations and the wealthy and promising it will trickle back down to the middle class is a failure. It is time for them to admit it and restore fairness to our tax code, take back our federal tax dollars for BadgerCare and use the money to restore needed funding to our public schools, health care and our state’s infrastructure.

“It is time for Senate Republicans to make Wisconsin families their first priority—not the Governor’s presidential ambitions.”
