Rep. Kind Statement on Nonpartisan CBO Score for Congressional Republican Health Care Bill

La Crosse, WI – Today the nonpartisan Congressional Budget Office found that the Congressional Republican Health Care Bill would make it harder for those with pre-existing conditions to get covered, negatively impact older Wisconsinites, and leave over 23 million Americans without health insurance by 2026. Below is Rep. Kind's statement:

"Today's report from the Congressional Budget Office, the nonpartisan referee responsible for finding the impact of policies, reinforces that the Congressional Republican Health Bill is a bad deal for hardworking rural Wisconsinites. Many Wisconsinites with pre-existing conditions would have difficulty purchasing health insurance and would see a drastic increase in the price, older Wisconsinites could see their insurance premiums go up by over \$10,000, and almost 23 million Americans would lose their health insurance by 2026."
