CHARTER COMMITS \$1 MILLION TO 2021 SPECTRUM DIGITAL EDUCATION PROGRAM

Applications for Nonprofits Supporting Community Broadband Education will be Available Beginning

June 1

MILWAUKEE – May 26, 2021 – Charter Communications, Inc. announced its commitment of \$1 million towards the 2021 Spectrum Digital Education (SDE) grant program, which supports nonprofit organizations that educate community members on the benefits of broadband and how to use it in their lives. Nonprofit organizations may begin to apply for support June 1 until Friday, June 25, at 5 p.m. EDT. Grants will be announced in August and awarded this fall.

“The past year has further highlighted the need for high-speed broadband connectivity throughout our country, and Charter is even more committed to doing its part to connect the unserved and underserved,” said Rahman Khan, Vice President of Community Impact for Charter. “Since we launched Spectrum Digital Education in 2017, we’ve provided resources as well as promote adoption and education in digital literacy for those in need throughout the communities we serve, and we look forward to continuing to meet those needs this year.”

Through February of this year, Spectrum Digital Education has awarded grants to nonprofit organizations that help communities expand their broadband and technical training in various ways, including teaching seniors digital skills, setting up technology labs, providing online classes for families that need homework and job support, and purchasing laptops for underserved groups, helping nearly 70,000 individuals across 19 states and Washington, D.C. To be eligible for a Spectrum Digital Education grant, organizations must serve communities located within Charter’s 41-state service area and have 501(c)(3) tax-exempt status. More information on how to apply is available [here](#).

This year’s \$1 million commitment comes after Charter boosted its 2020 program to \$1 million, in response to higher demand for digital education support due to the pandemic. In all, the company has committed \$7 million to support broadband education, technology and training through this program since its launch in 2017.

About Charter

Charter Communications, Inc. (NASDAQ:CHTR) is a leading broadband connectivity company and cable operator serving more than 31 million customers in 41 states through its Spectrum brand.
