## **Improving Education & Training Standards for a Safer Tomorrow**

MADISON – During week five of Building Safety Month the Alliance for Regulatory Coordination joins the International Code Council in encouraging ongoing education and training for those involved in building design, construction and regulatory services.

With powerful advancements in technology and frequent discoveries of new methods for solving age-old problems, the building industry, like many industries, is constantly changing. For building safety professionals worldwide, education and training are valuable and essential aspects of professional development. Those who consistently seek out avenues to expand their knowledge often see the most career success. Following are some advantages of training and professional development.

- Sharpen the tools in the toolbox – You can never go wrong improving your current set of skills and knowledge.
- Increased productivity – Well educated employees are the most productive and display high quality performance levels.
- Improves employee morale – Feeling more confident in your skills and abilities improves your overall attitude towards work.
- Fewer mistakes and accidents – Increase your knowledge and skills and lessen the chances of errors on the job.
- Increases chances of promotion – Become a strong asset for your organization. Acquire skills and efficiency during training to become more eligible for promotion.

*The [International Code Council](#) is dedicated to developing model codes and standards used in the design, build and compliance process to construct safe, sustainable, affordable and resilient structures. Most U.S. communities and many global markets choose the International Codes.*

*The [Alliance for Regulatory Coordination](#) is a consortium of 18 business, professional, trade and advocacy organizations involved in building design, construction and regulatory services in Wisconsin. The Alliance seeks regulatory services provided in the most efficient manner possible to effectively promote the health, safety and welfare of Wisconsin citizens and visitors.*
