Pasture walks planned across Wisconsin this summer

CHIPPEWA FALLS – Farmers looking for sustainable and cost-effective practices to apply on their farms are invited to take part in pasture walks happening across the state this summer. Wisconsin Farmers Union is pleased to be partnering with River Country RC&D, Southwest Badger RC&D and Glacierland RC&D to present a full line-up of events highlighting innovative farms and some of the state's top graziers.

"Interest in grazing continues to grow as farmers look to be better stewards of the land, increase animal comfort and improve their cost efficiencies," said Wisconsin Farmers Union Executive Director Tom Quinn. "We're pleased to be able to join forces with local RC&D groups to give farmers a glimpse on the 'other side of the fence' and the chance to get out and see grazing practices in action across Wisconsin."

Learn more at www.wisconsinfarmersunion.com. Upcoming events include:
