Gov. Evers Vetoes Legislation Restricting Reproductive Healthcare

MADISON — Gov. Tony Evers today vetoed AB 179, AB 180, AB 182, AB 183, legislation that would limit access to reproductive healthcare and needlessly interfere with and inject politics into patient-provider relationships.

"Everyone should have access to quality, affordable healthcare, and that includes reproductive healthcare," Gov. Evers said. "Politicians shouldn't be in the business of interfering with decisions made between patients and their healthcare providers."
