Sen. Testin's Statement on Budget Signing

“Governor Evers original budget proposal spent irresponsibly and raised taxes by \$1 billion. Today, he signed the legislature’s budget, which makes sound investments in health care, broadband, and transportation while returning a historic amount of money to taxpayers. Unfortunately, the Governor used his veto pen to eliminate provisions that would return money to the taxpayers faster, require drug testing for UI recipients, and transfer \$500,000,000 to the state’s rainy-day fund.”
