STATEMENT ON EVENTS IN CALEDONIA

“Today’s events once again shows an off-duty Racine-area law enforcement officer going above and beyond to protect the public. This deputy’s quick action undoubtedly prevented future violence and saved lives through his heroism today.

“For too long, too many public officials have been treating car thefts as just a passing phase. It is past time that our criminal justice system start taking car thefts and carjacking seriously. My heart goes out to the family of today’s victim of horrific violence. I ask that you keep the victim, his family and the Racine deputy in your thoughts and prayers.”
