Wisconsin Pipe Trades Association Endorses Steve Boe for Wisconsin's 31st Senate District

The Wisconsin Pipe Trades Association is proud to support Steve Boe for Wisconsin's 31st Senate District. When elected, Steve Boe will be a strong advocate for the hard working men and women in Wisconsin.

Growing up on a dairy farm in Jackson County, Steve Boe understands what hard work is all about. His diverse experience working of as Director for the Wisconsin Farm Bureau, as a teacher at Independence High School, and as staff in the WI Legislature makes him well suited to effectively represent the needs of the people in Wisconsin's 31st Senate District.

"Steve Boe is the right person to represent the hard working men and women in Wisconsin's 31st Senate District" said Terry Hayden, President of the Wisconsin Pipe Trades Association. "We believe strongly that creating good family-supporting jobs and having a clean environment are not things we need to choose between. Steve Boe's experience and common sense will make him an effective State Senator who fights for all working families in Wisconsin."

The Wisconsin Pipe Trades Association represents approximately 8,500 highly skilled men and women who work in the unionized piping industry in Wisconsin.
