Full and Partial Scholarships Available for Youth Camps

UW-Rock County was one of three campuses in the Southwest Region of the University of Wisconsin Colleges to receive a Department of Public Instruction Grant and through that grant is able to offer scholarships to participants that qualify for free and reduced lunch through their school. “We are pleased to offer youth a fun and positive, life-changing summer experience, because as Nelson Mandela said, “Education is the most powerful weapon which you can use to change the world.” We truly believe learning is for all ages and feel delighted this grant is allowing us to serve more people,” states Continuing Education Office and Registration Coordinator, Molly Cook.
