Lasee Earns Sole Endorsement of Wisconsin Family Action in 8th District Race

De Pere – The Lasee for Congress campaign today is thrilled to announce the endorsement of Wisconsin Family Action Federal PAC (WFA PAC) in Wisconsin's 8th Congressional district. With a lifetime 100% voting record from Wisconsin Right To Life and the American Conservative Union, Frank Lasee has a proven history of standing up for life, family, marriage, and religious liberty.

"I have always believed that we cannot have a strong nation without strong families," Lasee said. "Wisconsin Family Action has a proud record of fighting for Wisconsin families, and I have stood shoulder-to-shoulder with them throughout my career as a public servant. I am truly honored by WFA's endorsement."

While WFA PAC endorsed candidates from other races throughout the state, Frank Lasee is the only candidate endorsed in the 8th Congressional District race.

[Julaine Appling, Director of the WFA PAC, commented on the endorsement:](#)

"WFA PAC is very pleased to endorse these candidates, who have met the stringent requirements necessary to receive our support. They have each shown that they understand that to lead Wisconsin and our nation properly, to ensure our future, our best natural resource—our families—must be strengthened and preserved. These candidates are committed to doing that by working to, among other things, reduce government regulation, improve the business climate in order to encourage job creation, ensure families can make their own health-care choices, protect human life, and strengthen the institution of marriage. These are values WFA PAC shares with these candidates and with thousands of Wisconsin citizens in their respective districts.

Lasee is proud of his pro-life, pro-family voting record in Madison. He voted to ban partial-birth and late-term abortions, and to define marriage as between one man and one woman. He has also been one of Wisconsin's biggest advocate for religious freedoms to downsize government intrusions into our lives.

"I believe that life is God's to give, not man's to take," said Lasee. "The radical left is engaging in a culture war against the American family, and I am prepared to fight them in Washington just as I did in Madison. My record on pro-life and pro-family issues proves that."
