## **DOA Transit Capital Assistance Grants Available from Volkswagen Funds**

MADISON - The Wisconsin Department of Administration (DOA) is accepting applications for the Transit Capital Assistance Grant Program to fund the replacement of eligible public transit buses under the Volkswagen Environmental Mitigation Trust.

Volkswagen admitted to violating the federal Clean Air Act by selling diesel engine vehicles that utilized software designed to cheat on federal emissions tests. Judicial settlements require Volkswagen to pay more than \$2.9 billion into an Environmental Mitigation Trust Fund. The State of Wisconsin is a designated beneficiary and will receive \$67.1 million over the next 10 years to offset the excess pollution emitted by affected Volkswagen vehicles.

2017 Wisconsin Act 59 established the Transit Capital Assistance Grant Program to competitively award up to \$32 million of Volkswagen Trust funds to replace eligible public transit vehicles. The grant program will fund the replacement and scrapping of 1992-2009 engine model year class 4-8 public transit buses with new replacement diesel or alternate fueled buses. The program gives preference to communities or routes that DOA determines are critical for connecting employees with employers.

A full announcement and application are available on the DOA website at <https://doa.wi.gov/Pages/vwsettlementwisconsin.aspx>. Written questions regarding the grant program must be submitted by August 3, 2018 and applications are due by September 28, 2018.
