Foxconn Should be Paying Wisconsin to Access the Greatest Workforce on Earth

Madison – Rep. Jimmy Anderson released the following statement on the secret plan to lure Foxconn to Wisconsin.

“Wisconsin taxpayers should not be subsidizing private corporations at the expense of our children, schools, and roads. And despite Governor Walker’s alleged fiscal conservatism, the truth is that he is fine with spending money so long as it doesn’t go to you, the real hard-working taxpayers of our state. The Republican-controlled legislature and Governor Walker have consistently asked you to tighten your belt or have rejected other opportunities to create family sustaining jobs, but when a multinational corporation wants a multibillion-dollar handout, Governor Walker more than bends over backwards. All the while, our schools struggle to stay open, Main Street is littered with potholes, and huge numbers of Wisconsinites cannot even drink the water coming out of their taps. That’s not leadership” Anderson stated.
