Tammy Baldwin for Senate Statement on Wisconsin Senate Primary Results

MADISON - The Tammy Baldwin for Senate campaign released the following statement on tonight's Wisconsin Senate primary:

*"Wisconsinites want someone who will be in their corner and stand up to powerful special interests in Washington, not a bought-and-paid-for Senator," **said Tammy Baldwin.** "Leah Vukmir has a long record of putting her corporate special interest backers ahead of hardworking Wisconsin families, making the choice clear this November."*

Tammy Baldwin is the top target of powerful special interests. More than \$11 million has been spent by outside groups to beat Tammy Baldwin, more than any other Democratic Senator up for reelection this year.
