North Shore Healthcare: Senator Marklein Visits Elroy Health Services

ELROY— State Senator Howard Marklein (R-Spring Green) visited Elroy Health Services to tour the skilled nursing facility, meet with residents, and discuss the state of the long-term care industry with center leadership.

“It was an honor to host Senator Marklein at our center,” said Echo Bristol, Executive Director of Elroy Health Services. “We are very proud of what we do every day to serve the community of Elroy and the surrounding area. We were grateful to have the opportunity to share our story with the Senator and thank him in person for his continued support of the long-term care community.”

Elroy Health Services invited Senator Marklein to tour the facility following their recent recognition as a 2019 recipient of the Bronze – Commitment to Quality Award by the American Health Care Association and National Center for Assisted Living (AHCA/NCAL). The distinction is the first of three progressive award levels through the AHCA/NCAL National Quality Award Program. As a recipient of the Bronze - Commitment to Quality Award, Elroy Health Services may now move forward in developing approaches and achieving performance levels that meet the Silver - Achievement in Quality Award criteria.

“I sincerely appreciated the opportunity to connect directly with Echo and everyone at Elroy Health Services to better understand their role in our community,” Sen. Howard Marklein said. “Their personal commitment to providing exceptional care is evident. Our community is blessed to have a facility like this where our family members and friends are taken care of.”

About North Shore Healthcare

North Shore Healthcare and its facilities proudly serve communities in Wisconsin, Minnesota, and North Dakota by offering long-term skilled nursing care, short-term rehabilitation, and assisted living facilities. With organizational values such as trust, engagement, competence, respect, and passion, North Shore is dedicated to being the right choice for families and employees by establishing a culture that reinforces the values necessary to be the premier health services provider and employer in each of the communities they serve.
