SUBJECT: General School Aid Changes for Districts Receiving Sparsity Aid and Districts Not Receiving Sparsity Aid, 2010-11 to 2015-16

At your request, I am providing information on the general school aid changes from 2010-11 to 2015-16 for school districts that will receive sparsity aid in the 2016-17 school year and those that will not receive aid under the program.

Under current law, districts qualify for sparsity aid if they meet the following two criteria based on data from the prior year: (1) membership of less than 745 pupils; and (2) pupil population density of less than 10 pupils per square mile of the district's area. In 2016-17, 141 out of 422 school districts in the state will receive aid under the program. (There were 424 school districts in 2015-16.)

Attachment 1 shows the total 2010-11 and 2015-16 net general aid payments to districts that will receive sparsity aid in the 2016-17 school year and districts that will not receive sparsity aid in that year. Additionally, the attachment shows the 2015-16 change to the 2010-11 total payment in dollar and percentage terms.

Attachments 2 and 3 show the 2010-11 and 2015-16 net general aid payments to the indicated districts. Attachment 2 includes only districts that will receive sparsity aid in the 2016-17 school year, while Attachment 3 includes only districts that will not receive sparsity aid in that year. The attachments also show the 2015-16 change to the 2010-11 payment in dollar and percentage terms for each district.

Payments shown in the attachments are based on the October 15 aid run that districts use to set their levy under revenue limits. The attachments include only the payment from the main

general aid appropriation, which funds equalization, integration, and special adjustment aid. High poverty aid, which is also a general aid, is paid from a separate appropriation and is not included.

I hope this information is helpful. Please contact me if you have additional questions.
