

AFSCME Wisconsin's PEOPLE Committee, which is responsible for the union's political activities, is excited to announce their endorsement of Tony Evers for Governor of Wisconsin!

AFSCME Wisconsin President, Paul Spink, pointed to Tony's strong record supporting working people as one of the primary reasons for endorsement.

"AFSCME is proud to stand behind a candidate for Governor who understands the value of public service and who will be a powerful advocate for working people," said Spink. "We represent thousands of public and private sector workers across the state of Wisconsin and we will be working with other labor groups to propel Evers to victory in November!"

Evers, who has spent his career fighting to improve the lives of working class people, highlighted his focus on Wisconsin families.

"I've spent my career working to educate and inspire our kids while remaining committed to giving voice to working families," said Evers. "I know we are stronger when we look out for each other, and when we have an economy that works for everyone. That's why I'm proud to receive AFSCME's endorsement and look forward to working to improve the lives of workers across the state as Wisconsin's next governor."

Evers will be on the ballot in the General Election on November 6<sup>th</sup>.
