The City of Milwaukee Phase 4.1 Order Update

MILWAUKEE - On May 15, 2020, the City of Milwaukee Health Department (MHD) issued a public health and safety order called ‘Moving Milwaukee Forward.’ This order uses a measured, phased approach that utilizes data-driven gating criteria that aligns with federal and state guidance. This plan outlines the measures needed for the City of Milwaukee based on the latest science. Milwaukee has made steady progress in reducing the impact of COVID-19.

Below are the Five Key Indicators and Gating Criteria that drive our City’s advancement through the phases and guide our reopening.
These measures are reassessed every Friday but advancement through the phases can only occur 14 days after we are in a new phase. Today is the 8-week mark for Phase 4.1. This week, we are seeing a significantly positive trend and have moved into RED for cases. The slope of linear regression is 0.28 with a P-value of 0.004 and our positivity rate has increased; it is now 8.0% up from 6.4% last week. We will hold in phase 4.1 and reassess our progress next week, October 2, 2020 as a consistent statistically significant decline is our goal. MHD will continue to monitor the situation to determine if additional protective measures are necessary to reduce the spread of COVID-19.
