WATCH: New Evers Ad Highlights His Leadership on Education

After cutting \$800 million from our schools, Wisconsin families can't trust Walker on education

Madison, WI -- Today, Tony Evers' campaign released a new ad promoting Evers' positive vision of investing in education and ensuring every kid in Wisconsin can attend a great public school, no matter the zip code. The ad shows the clear contrast between Scott Walker's \$800 million cut to public schools, and Evers' record of raising graduation rates to nearly 90% while putting our students first as State Superintendent.

"In this race, there is only one candidate with a record of standing up for Wisconsin's kids, and that's Tony Evers," said Evers campaign manager Maggie Gau. "Unlike Walker's record of gutting our public schools and putting foreign corporations ahead of our students, Tony knows that what is good for our kids is good for Wisconsin. Whether it's raising graduation rates or advancing career training, he will always put our kids first."

Evers' ad can be viewed [here](#), and a full transcript is below.

"Every Kid" Transcript:

Do you trust Scott Walker on education?

He's the politician who cut \$800 million from our schools.

It's time for new leadership. Tony Evers.

As governor, he'll make sure every kid has a great public school regardless of their zip code.

Tony raised graduation rates to nearly 90% as State Superintendent.

And he advanced career and technical training.

A former teacher who will put our kids first.

Tony Evers. It's time for a change.
