Frontier is focused on more than low fares. The carrier offers customers the ability to customize travel to their needs and budget. For example, customers can purchase options a la carte or in one low-priced bundle called the WORKS. This bundle includes refundability, a carry-on bag, a checked bag, the best available seat, waived change fees, and priority boarding.

The airline’s frequent flyer program, *FRONTIER Miles*, lets members enjoy many benefits as well as the ability to attain Elite status. Like the airline, *FRONTIER Miles* is family friendly and the program makes it easy for families to enjoy the rewards together, including family pooling of miles. *FRONTIER Miles* is aptly named because you earn one mile for every mile flown - no funny formulas at Frontier. Whether customers travel a little or a lot, they will find *FRONTIER Miles* rewarding.

The health and safety of customers and team members is Frontier's number one priority. With that in mind, Frontier introduced sweeping health and safety enhancements in 2020 that touch every step of a customer's travel journey with the airline.

Frontier and federal law require that all customers and crew members wear a face covering throughout their travel journey. Plus, anyone flying with Frontier must accept a health acknowledgement during the check-in process.

During flight, main cabin air is a mix of fresh air drawn from outside and air that has been passed through an air filtration system that features HEPA filters capable of capturing respiratory virus particles at more than 99.9% efficiency - similar to those used in hospital environments. Frontier's modern all-Airbus fleet is among the youngest in the world, with an average age of approximately four years.
