## **REALTORS® Association of Northeast Wisconsin Advocates for Kimberly-Clark Incentive Package**

**APPLETON, Wis. (Oct. 9, 2018)**– The REALTORS® Association of Northeast Wisconsin (RANW) has joined the call for the passage of an incentive package that will keep the Kimberly-Clark Cold Spring facility open.

"We thank the Governor and Senate leadership for calling an Extraordinary Session on November 12<sup>th</sup> to continue the effort to save hundreds of jobs in the state. We are hopeful that continued discussion by the Senate will lead to passage of this much-needed legislation," said RANW President Mike Kunesh.

"As an organization that represents seven different market areas across Northeast Wisconsin, we believe that this effort is about more than saving the Kimberly-Clark jobs; it is also about investing in the future of this historic company and strengthening manufacturing's future in our state."
