Fond du Lac County- Admitted plagiarist and Democrat Nominee for Governor, Tony Evers, has called for eliminating the Manufacturing and Agricultural Tax Credit while simultaneously being open to a dollar per gallon increase in the gas tax, policies that would devastate Fond du Lac County.

“Fond du Lac County is a working class county that relies heavily on manufacturing and agriculture to provide family supporting jobs,” said Rohn Bishop, Chairman of the Republican Party of Fond du Lac County, *“Evers’ plans to jack up taxes on farmers and business while also sticking it to us middle class families with his prosperous increase in our gas tax, and one thing is abundantly clear; Fond du Lac County can’t afford Tony Evers!”*

Bishop went on to say it’s important to remind voters of the Governor’s strong record in standing up for working class families. *“We need to remind voters that it’s Governor Walker and Republicans who’ve delivered a child tax credit, a back to school sales tax holiday, froze tuition at UW campuses, lowered property taxes, cut income taxes, and is investing more money into our public schools than ever before, all while creating the strongest economy in Wisconsin’s history! With a record like that, why would we ever want to go back to where we were, just 8 short years ago?”*
