Statement by New Glarus Brewing Regarding Recent Court Filing

New Glarus Brewing Company has taken our first steps in defense against an incredibly hurtful and selfish attempt to force the sale or dissolution of the Brewery.

We are honored to give back to our local community and to non-profits throughout Wisconsin. We are passionate Brewers. We proudly invest in our incredible team members and are forever grateful every time a customer in a world of many choices supports local and buys New Glarus.

Our Wisconsin brewery sells our brews in our home state. We are employee-owned, founded, and successfully led for almost thirty years by a woman. Our cans, bottles, labels, and boxes are all made in Wisconsin. We are the largest user of Wisconsin grown hops. Much of our barley and fruit is grown right here in Wisconsin. These facts exemplify New Glarus Brewing Company's unique commitment to Wisconsin.

Today and every day we thank you --- the public and all who came to our defense when inaccurate and hurtful comments were made about the brewery, our employees, and my family. Together, we have built something special and Only in Wisconsin. Rest assured we will fight to remain true to ourselves and our great state.

Cheers!

Deb Carey
Founder
New Glarus Brewing Company
