

Statement from Dana Wachs Honoring Wisconsin's Veterans

EAU CLAIRE – Dana Wachs issued the following statement today honoring Wisconsin's veterans:

"For generations, the men and women of Wisconsin have volunteered to serve our country. They were soldiers, doctors, technicians, and leaders. They often moved their families across the country and across the world over years of service. I am humbled by their commitment to our nation and to their fellow Americans.

"Even as we celebrate their service, we cannot forget all that we must do to help improve the lives of Wisconsin veterans -- by improving access to health care, creating family-supporting jobs, ensuring good schools for their children, and protecting access to the great State of Wisconsin's outdoors for recreation. It is up to each of us to make Wisconsin a better place for our veterans and for all of our residents."
