December 12, 2016

TO: Representative Sody Pope  
Room 118 North, State Capitol

FROM: Russ Kava, Fiscal Analyst

SUBJECT: Effect of Incoming Choice Pupils on General School Aid Distribution

At your request, I am providing information on the effect that including incoming choice pupils in the pupil membership of their resident school district had on the distribution of general school aid in 2016-17.

### Background

Under the Milwaukee, Racine, and statewide private school choice programs, the state pays a statutorily-determined per pupil amount for children from eligible families to attend participating private schools. In 2016-17, the per pupil payment is \$7,323 for a pupil in grades K-8 and \$7,969 for a pupil in grades 9-12.

Under the Milwaukee program, payments are made from a sum-sufficient GPR appropriation estimated at \$203.7 million in 2016-17. To partially offset the cost of the program, the Department of Public Instruction is required by law to reduce the general aid for which the Milwaukee Public Schools (MPS) is eligible by a percentage of the total cost of the program. In 2016-17, the aid reduction is equal to 25.6% of the total cost of the program, or \$52.1 million. (This percentage will be reduced by 3.2 percentage points in each year until no aid reduction is made beginning in 2024-25.) Under revenue limits, MPS can levy to make up for the aid reduction. By law, any high poverty aid MPS receives must be used to offset the choice levy attributable to the general aid reduction. In 2016-17, MPS will receive \$5.3 million in high poverty aid. After consideration of high poverty aid, the effective aid reduction for MPS related to the choice program is \$46.8 million, which is 23.0% of the estimated cost of the program in 2016-17. Pupils in the Milwaukee program are not included by MPS for the calculation of general aid.

Under the Racine and statewide programs, payments for continuing pupils (those who participated in the programs in the 2014-15 school year or earlier) are fully funded through state GPR. Payments for incoming pupils (those who first participated in the programs in the 2015-16

school year or later) are fully offset by a reduction in the general aid that would otherwise be paid to those pupils' school districts of residence. To make up for the aid reduction, school districts count incoming choice pupils for general aids on a prior year basis, and receive a revenue limit adjustment for each pupil in the current year. In 2016-17, the revenue limit adjustment is equal to the amount of the aid reduction. Other than the revenue limit adjustment, school districts are not permitted to levy to make up for the aid reductions attributable to the Racine or statewide choice programs. In 2016-17, the total cost of payments for continuing and incoming pupils in the Racine and statewide choice programs is equal to \$40.9 million, with the aid reduction for incoming pupils equal to \$25.5 million.

### **General School Aid Effect**

You asked what the 2016-17 distribution of general school aid would have been if school districts had not been able to include incoming choice pupils in the Racine and statewide choice programs in their pupil membership for the calculation of general school aid. The attachment shows the distribution of general school aid under current law in 2016-17 with incoming choice pupils included in pupil membership and what the distribution would have been under a proposal to exclude incoming choice pupils from pupil membership. Also shown is the change in the payments for each district under the proposal compared to current law, both in dollar and percentage terms. The number of incoming choice pupils is shown for each district.

Had the proposal to exclude incoming choice pupils been in effect for the distribution of general aid in 2016-17, 276 districts would have received more general aid under the proposal compared to current law, while 74 districts would have received less aid. Aid to 74 districts would have remained unchanged. A total of \$9.7 million in aid (0.2% of total net general aid payments) would have been redistributed under the proposal.

Among the 142 districts that had incoming choice pupils included in their pupil membership for the 2016-17 aid distribution, 60 districts would have received more general aid under the proposal to exclude incoming choice pupils compared to current law, while 74 districts would have received less aid. Aid to eight districts would have remained unchanged.

Among the 282 districts that did not have any incoming choice pupils included in their pupil membership for the 2016-17 aid distribution, 216 districts would have received more general aid under the proposal to exclude incoming choice pupils compared to current law, while no districts would have received less aid. Aid to 66 districts would have remained unchanged.

I hope this information is helpful. Please contact me if you have further questions.
