2017 BILL

1 AN ACT *to amend* 601.43 (1) (a); and *to create* chapter 649 of the statutes;
2 **relating to:** registration of pharmacy benefit managers, granting rule-making
3 authority, and providing a penalty.

Analysis by the Legislative Reference Bureau

This bill generally allows the commissioner of insurance to regulate pharmacy benefit managers. A pharmacy benefit manager is an entity that procures prescription drugs at a negotiated rate for dispensation; administers or manages prescription drug benefits; performs mail service pharmacy services; processes pharmacy benefit claims; develops clinical formularies and performs management services; contracts and administers prescription drug rebates; or conducts disease management programs or patient compliance, therapeutic intervention, and generic substitution programs.

The bill prohibits a person, except an insurer already regulated by the commissioner, from performing any activities of a pharmacy benefit manager in this state without first registering with the commissioner. Certain pharmacy benefit managers must be licensed by the Pharmacy Examining Board and registered as a pharmacy benefit manager. If the Pharmacy Examining Board revokes the pharmacy or distributor license for such a pharmacy benefit manager, the commissioner must revoke the pharmacy benefit manager registration. An applicant for registration as a pharmacy benefit manager must file an appropriate application and pay any registration fee set by the commissioner. A registration is valid for one year. The commissioner may refuse to register a pharmacy benefit manager for which a previous registration was suspended or revoked.

BILL

Under the bill, the commissioner, after a hearing, may suspend or revoke a registration of a pharmacy benefit manager if the registered pharmacy benefit manager, or an officer, director, or employee of a registered pharmacy benefit manager does any of the actions specified in the bill. The commissioner may promulgate rules necessary to carry out the intent of pharmacy benefit manager registration. The bill also allows the commissioner to use his or her authority that is granted to regulate insurers to similarly regulate pharmacy benefit managers, including the authority to require reports, conduct examinations, and issue orders.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
